mEducation Alliance Research

VIRTUAL STUDENT FOREIGN SERVICE
V S F S

Project Title	mEducation Alliance Research
Project Summary	Support research, knowledge management, and events related to cost-effective, sustainable, and appropriate utilization of technologies for education, primarily in low-resource developing countries.
Country	United States
Agency	Agency for International Development
DoS Office	N/A
Post	N/A
Section	N/A
Number of Interns	2

Project Description

The intern(s) will support collaboration among the Steering Committee members of and new content development (e.g, website, infobriefs, research) for the Mobiles for Education Alliance (www.meducationalliance.org). The mEducation Alliance was established in 2010 and is a loose affiliation of 20 donor, private sector association, and international NGOs focused on the cost-effective and scalable uses of a broad range of technologies in low resource, developing country context. The interns will contribute to and participate in the annual mEducation Alliance Symposium (this year taking place from October 18-20th) in Washington, D.C. Among other research topics, the intern(s) will contribute to ICT4E landscape review, research, and other content development on topics such as ePayments in Education, gamification, and disability.
